PROFESSIONAL SUMMARY

I am a fourth-year Computer Science student with a passion for web design and development. I enjoy creating visually appealing and user-friendly website designs and bringing them to life through code. Seeing my designs become fully functional websites motivates me to continuously learn and improve my skills.

EDUCATION

Bachelor of Science in Computer Science Biliran Province State University
Expected Graduation: 2027 | Biliarn province State University

Relevant Coursework: Web Development, Database Management Systems, Object-Oriented Programming, Data Structures and
Algorithms, Software Engineering, Human-Computer Interaction, Computer Networks

TECHNICAL SKILLS

Programming Languages: Java
Web Development: HTML, CSS, JavaScript,
Database / Tools: GitHub, VS Code
Design / Other: Figma, UI/UX design, AI-assisted development
Soft Skills: communication, teamwork,

ACADEMIC PROJECTS

Coconut | Role | Year [Briefly describe the project, your contribution, and technologies used.]

Findit-Campus Navigation System |Student Developer |2025-2026

- Developed a campus navigation web application designed to help students, faculty, and visitors locate buildings and facilities.
- Contributed to the system's interface, navigation features, and administrative functions.
- Technologies: Django, Python, SQLite, HTML, CSS, JavaScript, and Leaflet.js.

PulmoCare-Clinical Decision Support System | Researcher | 2026

- Developed a healthcare application prototype for pulmonary infection pre-diagnosis and patient appointment scheduling.
- Worked on the rule-based prediction workflow, user interface, and patient management features.
- Focused on improving the accessibility of preliminary health assessment and scheduling.

EXPERIENCE / INTERNSHIP / VOLUNTEER WORK

Academic Software Development Experience | University Project | Naval, Biliran | 2025

- Participated in the planning, development, and testing of academic software projects.
- Collaborated with team members in designing and developing web-based applications.
- Applied programming, troubleshooting, and problem-solving skills to project requirements.
- Assisted in preparing technical documentation and project presentations.

CERTIFICATIONS & TRAINING

Be MoreDigi-Talino Integrated OS | Sept. 2025]
Developing Designs for a Logo Tesda | Oct. 2026]
Networking Basics OS | May 2026]
Unplug & Unwind Seminar Bipsu | Sept. 2024]
Generative AI Literacy Skillquest | Oct 2026]
